

# Consultant, Digital Plant Process Management (m/f/d)

Full time I in Bad Säckingen

Are you a communicative type of person with an affinity for software solutions? You have talent and passion for project management? Become part of a unique family environment and work proactive in one of our expert teams with a high degree of personal responsibility. We are a leading international company in the sector of process industry with more than 40,000 users around the world who are benefiting from our solution Shiftconnector®.

## Your chance

Every employee plays an important role in the growth and success story of eschbach. Become part of an established and at the same time visionary company with start-up character:

- Grow personally and professionally through your challenging tasks, (and) regular training and development opportunities
- Make a difference with a degree of freedom which includes enough responsibility and commitment
- Work in a bright, modern office with a cafeteria, roof terrace and free parking lots
- Coffee, water, fruit and a lunch allowance are included
- Get relocation-support for the move to the region of Bad Säckingen / Southern Germany

## Your tasks

- Customer consulting and requirements analysis with focus on chemical and pharmaceutical manufacturing
- Configuration of the Shiftconnector® Plant Process Management Solution
- Specification of deliverables as well as internal and external coordination with team colleagues and the customers' project managers
- Taking over responsibility as project manager for project execution on time and within a set budget
- Conducting and moderating workshops and trainings on site at the customers' premises
- Carrying out acceptance tests, project and solution documentation

## Your profile

- Studies in the field of economics, business informatics or engineering, alternatively commercial/computer science-oriented training with professional experience
- Talent and passion for project management
- Entrepreneurial drive and a proactive way of working
- Ability to handle a multi-project landscape, including global implementations
- Confident and convincing appearance towards customers
- Creativity in the implementation of requirements
- Excellent English and German communication skills
- Willingness to travel, mainly Germany and Europe

**Help creating our future and become part of the eschbach family.
