

# IT Specialist System Administration & DevOps (m/f/d)

Full time I in Bad Säckingen

You are a server expert in the field of Microsoft? You like working in a family environment? You want to participate in a young, future-oriented and at the same time well-established company? Then we should get to know each other!

## Your chance

Every employee plays an important role in the growth and success story of eschbach. Become part of an established and at the same time visionary company with start-up character:

- Get together with an agile expert team and work on innovative software implementation projects
- Be part of a dynamic and international team where collaboration, open-mindedness and team-spirit are an essential part of the work ethic
- Work in close cooperation with your team and team leader while onboarding
- Take on a high degree of personal responsibility
- Grow personally and professionally through your challenging tasks, regular training and development opportunities
- Make a difference with a degree of freedom which includes enough responsibility and commitment
- Enjoy working in a high-class and ergonomically designed workplace, height adjustable desks, the latest hardware, air-conditioned offices with roof terrace, cafeteria and free parking lots
- Coffee, water, fruit and a lunch allowance are (of course) included
- Get relocation-support for the move to the region of Bad Säckingen / Southern Germany

## Your tasks

- Operating and maintaining our cloud server environment based on Microsoft Windows Server, IIS und SQL
- Executing installations, operation and updates of our Shiftconnector® web application in our cloud infrastructure or on customer servers
- Configuring interfaces for the integration of Shiftconnector® into the system landscape of our customers
- Incident management, 2nd and 3rd level support to eliminate technical interferences
- Communication and close cooperation with our software developers in all aspects of operation and maintenance of the Shiftconnector® web application
- Continuous improvement of our Cloud SaaS infrastructure and participation in deployment automation projects

## Your profile

- Completed training or further education in the relevant field, e.g. IT specialist for system integration, or equivalent professional experience
- Profound knowledge in web application administration and server operating systems, especially Microsoft Windows Server, IIS and SQL
- Experience in the field of server virtualization
- Excellent German and English communication skills

**Help creating our future and become part of the eschbach family.  
Ready for the challenge? Apply now!**
