

# Application Manager (m/f/d)

Full-time | in Bad Säckingen

Are you passionate about IT and experienced in supporting software applications? Become part of an agile team of experts and work with a high degree of personal responsibility in a unique family environment for leading international companies in the process industry. More than 50,000 users around the globe use our Shiftconnector® solution in the cloud or on-premise to improve communication and documentation in production operations.

## Your chance

Every employee plays an important role in the growth and success story of eschbach. Become part of an established and at the same time visionary company with start-up character:

- Work in an agile and ambitious team and enjoy a pleasant working atmosphere
- A wide range of opportunities for further development and training
- Make a difference with a degree of freedom which includes enough responsibility and commitment
- Work in a bright, modern office with a cafeteria, roof terrace and free parking lots
- Coffee, water, fruit and a lunch allowance are included
- Strong team spirit with regular events
- Generous home office rules for the perfect mix of team time, focus time and work-life balance
- Relocation Support to Bad Säckingen/South Germany

## Your tasks

- Implementation and configuration of our software solution Shiftconnector® (Plant Process Management Tool) for renowned global players in the chemical and pharmaceutical industry
- Participation in the project environment and partial project responsibility, on-time and on-budget delivery of solutions
- Participation in project status meetings
- Carrying out software updates, maintenance of our customer installations in cloud environments as well as on-premise
- Configuration of our standard web API interfaces
- Performing acceptance tests, project and solution documentation
- Support with technical problems on the 1st/2nd level

## Your profile

- Studies in the field of business, computer science or engineering, IT-oriented training or relevant professional experience
- Experience in application management, ideally of web applications in the Microsoft technology stack
- SQL knowledge
- Proactive, self-reliant and structured way of working
- Good self-management, even with many tasks
- Solution creativity in the implementation of requirements
- Very good written and spoken German and English skills, other languages are of advantage

**Help creating our future and become part of the eschbach family.
