

# Software Consultant (m/f/d)

Full-time I in Bad Säckingen

Are you a communicative type of person with an affinity for software solutions? If so, we invite you to become part of a unique family environment and work proactively in one of our expert teams with a high degree of personal responsibility. We are a leading international company in the process industry with more than 40,000 users around the world who are benefiting from our software solution Shiftconnector®.

## Your chance

Every employee plays an important role in the growth and success story of eschbach. Become part of an established and at the same time visionary company with start-up character:

- Grow personally and professionally through challenging tasks, regular training and development opportunities
- Make a difference with a degree of freedom which includes personal responsibility and commitment
- Be part of a dynamic and international team where collaboration, open-mindedness and team-spirit are an essential part of the work ethic
- We offer you secure employment in a professional, family environment with the chance of international travel and work experience

## Your tasks

- Customer consulting and requirements analysis with focus on chemical and pharmaceutical manufacturing
- Implementation and configuration of our software solution (Plant Process Management Tool)
- Taking over responsibility as project manager for on-time and on-budget project execution
- Use of appropriate verification techniques to manage project scope, project schedule and project costs
- Drive regular project status meetings
- Conduct on-site workshops and trainings at the client's premises (currently via online tools, such as Microsoft Teams)
- Interface between clients and internal departments
- Conduct acceptance testing, project and solution documentation

## Your profile

- Studies in the field of economics, business informatics or engineering or equivalent qualification
- Proactive, responsible and structured way of working
- Talent and passion for project management
- Ability to manage a multi-project environment, including global implementations
- Confident and convincing appearance towards customers
- Creativity in the implementation of requirements
- Excellent English and German communication skills, other languages are of advantage
- Willingness to travel

**Help creating our future and become part of the eschbach family.
